Q.2 True / false and fill in the blanks

08

1. Neries is belongs to arthropoda (True/False)
2. Haem and globulin present in RBC (True/False)
3. Endocrine gland helps in digetion (True/False)
4. AIDS is airborne diseases (True/False)
5. Neries adult form called _____
6. _____ is anticoagulant
7. Growth hormone circuited by _____ gland
8. _____ is called slipping sickness diseases

Q.3 Answer the following (any ten)

20

1. Draw a labeled diagramme of Neries
2. What is hetero neries
3. Write about nervous system of Liver fluke
4. Write any two culture medium
5. What is anticoagulant system?
6. What is lymph? Explain in brief
7. Write importance of circulatory medium
8. What is hormone? Explain in brief
9. Write importance of endocrine glands
10. Write name of hormones secreted by pituitary gland
11. Write any four names of pathogen effect our life
12. How to control AIDS in short

Q.3 Write long question (any four)

(8X4=32)

- a) Digestive system and digestion of Neries 08
- b) Parasitic adaption of Liver fluke 08
- c) What is ABO blood system? And Rh factor 08
- d) Describe structure and working of human heart 08
- e) What is Hormone? write note on action of Water soluble hormones 08
- f) write note on adrenal gland and its Hormones 08
- g) What is heart attack? How it control, write in short 08
- h) Define Transgenic animal describe any two animals 08
